

WHY PARTNER WITH THE

PAN Foundation

Together, our work can help seniors with serious illnesses access their medical treatment.

To discuss partnership opportunities, contact Leena Patel, Vice President of Development, at lpatel@panfoundation.org or Carly Heinz, Manager of Corporate and Foundation Giving, at cheinz@panfoundation.org.

32,400 providers & pharmacists
in our network

350,000
email subscribers

Over 20 partnerships
with leading patient advocacy organizations

20,000
social media followers

Make an impact

Your charitable contributions make an immediate impact on the lives of patients and their families.

Change a life today

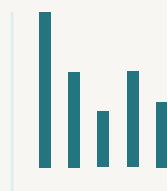

95% of your contribution goes directly to help patients start and stay on life-saving treatment.

Tell your story with data

Our in-house data analytics team has all the reporting you need to see your corporate impact.

Hear from patients

Many patients are eager to share the personal impact of PAN's assistance and their gratitude for donors like you with the world.

Contribute to the UN Sustainable Development Goals

Together, we can make progress toward the UN Sustainable Development Goals.

GOAL 1 No poverty

We can't end poverty in the U.S. without addressing rising healthcare costs for our nation's aging seniors. By working together, we can expand the safety net for those most vulnerable.

GOAL 3 Good health and well being

When cost is prohibitive, older adults skip or go without treatment. Your contributions help patients who are seriously ill achieve better health outcomes.

ABOUT US

We help underinsured people with life-threatening, chronic, and rare diseases get the medications and treatments they need.

We provide direct financial assistance for patients' out-of-pocket costs and advocate for improved access and affordability. We're proud to be recognized annually by independent, third-party organizations for effective financial stewardship, transparency, and impact on older adults and underserved communities.
